### **DETAILED ACTION**

1. Applicants' Preliminary Amendment, received 29 December 2005, is acknowledged. 1-44, 47, 49 and 51-57 have been amended. Claims 45, 46, 48 and 50 have been cancelled.
2. Claims 1-44, 47, 49 and 51-57 are pending.

### **Election/Restrictions**

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-41, 47, 49 and 51-57 drawn to polypeptides and method of use.

Group II, claims 42-44, drawn to nucleic acid, vector and host cells.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The two groups are drawn to structurally and functionally distinct technical features.

The special technical feature of Group I is amino acid sequences and methods of using the sequence.

The special technical feature of Group II is nucleic acid sequences and vectors and host cells comprising said nucleic acid sequences.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be

traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
